TESTIMONIALS

OF

DR. R. P. HOWARD.

TESTIMONIAL OF A. T. HOLMES, M. D. E., &c. &c.

Professor of Medicine, McGill College.

At the request of Doctor ROBERT PALMER HOWARD, I have pleasure in writing this Testimonial of the respect with which I regard him. Becoming first acquainted with him as a pupil in the Medical Department of McGill College, I could not fail to notice his assiduous attention to his studies, and his consequent rapid proficiency therein; and having subsequently observed him in other relations, I have formed the opinion that, from his intelligence, knowledge of his profession, correct and gentlemanly deportment, and moral and religious feelings, he would fulfil the duties of any situation to which he might be called, in a manner honorable to himself and useful to others.

September, 28, 1848.

A. F. HOLMES, M. D. E.

TESTIMONIAL OF R. L. MACDONNELL, M. D.

Physician to the Montreal General Hospital, and Lecturer on the Institutes of Medicine, University of McGill College.

I certify that Dr. ROBERT PALMER HOWARD studied under my superintendence for three years at the University of McGill College, during which time he was remarkable for great diligence and zeal in the pursuit of knowledge, and for uniform propriety of conduct. He acted for sometime as my Clinical Clerk, and had thus ample opportunities of improvement, of which he availed himself with unusual assiduity, and thus acquired a knowledge of disease but seldom attained by one of his standing in the profession.

Montreal, October 10, 1848.

R. L. MACDONNELL, M. D.

TESTIMONIAL OF GEORGE W. CAMPBELL, A. M. M. D.

Lecturer on Principles and Practice of Surgery, McGill College, Montreal, and one of the Medical Staff of the Montreal General Hospital.

Dr. ROBERT P. HOWARD has been well known to me for the last four years, during which period he has been engaged in the study of Medicine.

Circumstances have afforded me an opportunity of giving him this Testimonial with more than common propriety. During the last period of my attendance at the Montreal General Hospital, he acted in the capacity of House Surgeon; and I was most fully satisfied with the ability, fidelity, and humanity, with which he performed the duties of that important trust. I can, with perfect truth, assert that I have seldom been acquainted with any young man, of whose character, and professional acquirements, I entertain a more favourable opinion; and I have great pleasure in recommending him, as qualified to practise his profession with honor to himself, and advantage to those by whom he is employed.

GEO. W. CAMPBELL, A. M., M. D.

Montreal, 29th September, 1848.

TESTIMONIAL OF S. C. SEWELL, M. D., C. D.

Lecturer on Materia Medica, University of McGill College, Ex-President Royal Medical Society, Edinburgh, President Natural History, Honorary and Corresponding Member of various Scientific Societies.

Dr. R. PALMER HOWARD distinguished himself during the period that he pursued his Medical Studies in McGill College by unremitting application and regular attendance. He took the first prize in my class in the Session of 1847-48. His moral conduct is unexceptionable, and his character that of a gentleman.

S. C. SEWELL, M. D.

Montreal, 2nd October, 1848.

TESTIMONIAL OF JAMES CRAWFORD, M. D.,

Lecturer on Clinical Medicine, and Secretary to the Medical Board of the Montreal General Hospital.

This is to certify that Mr. ROBERT PALMER HOWARD, acted as representative of the Assistant House Surgeon of the Montreal General Hospital, during the severe epidemic of fever, from 1st June to end of September, 1847, during which time he performed his arduous duty zealously and faithfully. Mr. PALMER's character, during his pupilage, has been remarkable for steadiness, morality and urbanity, and I have pleasure in stating that he has gained the esteem of all his instructors, and the very creditable examination he has passed on taking his degree of M. D., proved that he had well employed his time.

JAMES CRAWFORD, M. D.

Montreal, 25th September, 1848.

TESTIMONIAL OF A. HALL, M. D.,

Lecturer in Chemistry, McGill College, Physician to the Montreal Hospital, and Consulting Physician to the University Lying-in Hospital, &c. &c. &c.

Dr. HOWARD has been known to me for several years past as a Student at the Medical classes in the University, at which he graduated in May last. While a Student he was characterized for zeal, assiduity, and close devotion to his studies, the fruits of which have been exhibited at his examination, at which he displayed an intimate knowledge of his profession and scientific research. Wherever placed I shall be most happy to hear of Dr. HOWARD's prosperity, feeling perfectly assured, from a personal acquaintance, that he possesses every claim on the public confidence. I am pleased at this opportunity of bearing my testimony in his favour.

A. HALL, M. D.

Montreal, October 3rd, 1848.

TESTIMONIAL OF M. McCULLOCH, M.

M. R. C. S. L.

I have much pleasure in certifying that Dr. ROBERT PALMER HOWARD attended two courses of my Lectures on Midwifery, and the diseases of Women and Children, and that he has been distinguished by assiduous attention to his studies, superior intelligence, and the possession in an eminent degree of all the knowledge requisite to enable him to discharge skilfully the responsible duties of an Accoucheur.

M. McCULLOCH, M. D.

Montreal, 16th October, 1848.

TESTIMONIAL OF WILLIAM FRASER, M. D.,

Lecturer on Forensic Medicine, McGill College.

I have much pleasure in certifying that Dr. R. P. HOWARD acted as my Clinical Clerk in the Montreal General Hospital during the summer of 1847, and attended my Lectures in the McGill College during the Session, 1847-48.

At the Lectures and Examinations Dr. HOWARD attended regularly, and his appearances at the latter were highly satisfactory, and such as convinced me that he was attentive to his studies in private. In the Hospital, Dr. HOWARD's conduct gave me every satisfaction; he was obliging and gentlemanly in his deportment, attentive to anything entrusted to his care, and evinced good judgment when called upon to act for himself. From all that I know of him, I am impressed with a very favourable opinion of his abilities and medical acquirements, and shall feel disappointed if he does not become a successful practitioner.

WILLIAM FRASER, M. D.

Montreal, October 3, 1848.

TESTIMONIAL OF W. E. SCOTT, M. D.,

Demonstrator of Anatomy, University of McGill College, and one of the Medical Staff of the Montreal General Hospital.

I beg to certify that I have been acquainted with Dr. R. P. HOWARD for the last four years, during the greater portion of which period, I have been in daily communication with him, and consequently have had numerous opportunities afforded me of noticing his uniform gentlemanly deportment, and untiring zeal in the acquirement of his profession, both in the dissecting room and in attendance on Lectures;—during part of last summer, he acted in the capacity of House Surgeon of the General Hospital—the advantages derivable from which Institution he has doubtless benefited by. I have much pleasure in recommending him as being eminently well qualified to practise his profession in all its branches.

W. E. SCOTT, M. D.

Montreal, October 7, 1848.

TESTIMONIAL OF ROBERT ADAMS, M. D.,

Fellow, and one of the Council of the Royal College of Surgeons in Ireland, one of the Presidents to the Dublin Pathological Society, one of the Surgeons to the Richmond Hospital, and House of Industry Hospital, Dublin.

During the winter Session of 1848-49, I had the pleasure of knowing Dr. HOWARD as a student, attending the Medical and Surgical Hospitals of the House of Industry, Dublin—an Hospital establishment containing above 300 patients. I feel great satisfaction in being able to bear my testimony to the zeal and unwearied industry he manifested, in the prosecution of Medical and Surgical knowledge, and I am persuaded that should he be appointed as Clinical Physician or Surgeon to any similar institution in America, that the manner and effect with which he will perform his duties, will give general satisfaction, and reflect credit on the school in which we are happy to feel he was partly educated.

ROBERT ADAMS, M. D.

11 Great Denmark Street, June 1st, 1850.

TESTIMONIAL OF JOHN HAMILTON, M. R. I. A.,

Surgeon to the Richmond Hospital, and Lecturer on Surgery to the Carmichael School of Medicine.

Dr. R. P. HOWARD attended the Clinical practice in the Richmond Hospital during the winter session of 1848-9, and I am happy to bear testimony to the zeal and ability I observed in him in prosecuting his researches in the knowledge and treatment of surgical diseases, and I feel confident that the same qualities and the same disposition to obtain professional knowledge will not fail to render him an efficient medical officer in any Institution in which he may be placed.

Dublin, June 12th, 1850.

JOHN HAMILTON, M. R. I. A.

TESTIMONIAL OF W. STOKES, M. D.

Regius Professor of Physics, Dublin.

I beg to state, that I had the pleasure of becoming acquainted with Dr. HOWARD during the period of his visit to Dublin, and that I formed a high opinion of his professional attainments, and of his general fitness to discharge the duties of Medical officer to a public Institution.

Merrion Square, Dublin, June 12, 1850.

W. STOKES, M. D.

TESTIMONIAL OF O. W. BELLINGHAM, M. D.

Fellow and Member of the Court of Examiners of the Royal College of Surgeons, Ireland, one of the Surgeons of St. Vincent's Hospital.

From the opportunities which I had of meeting Dr. Howard, when in attendance upon the Dublin Hospitals, in the winter of 1848-49, I am enabled to add my testimony to that of his many friends as to his professional acquirements, which are of a very high order. He is in my opinion eminently qualified to discharge the duties of the Hospital appointment which he seeks, and will I am sure prove a valuable officer.

O. W. BELLINGHAM, M. D.

Eccles St., Dublin, June 8, 1850.

TESTIMONIAL OF J. McDONNELL, M. D.

One of the Surgeons of the Richmond Hospital.

I had the pleasure of knowing Dr. Howard while he attended Lectures and Hospital Practice at the Richmond Hospital at Dublin, during the winter of 1848-9; and I can testify to the propriety of his conduct, and to his assiduity as a student while he was under my observation.

J. McDONNELL, M. D.

4 Gardiner's Row, Dublin, June 20, 1850.

TESTIMONIAL OF C. LEES, M. B.

Physician to the Meath Hospital and County of Dublin Infirmary.

Dr. R. P. Howard attended the Medical wards of the Meath Hospital during the session of 1848 and 1849. He was distinguished for his attention and zeal in the study of his profession and I have no doubt, is well qualified to practise it.

C. LEES, M. B.

Dublin, June 10, 1850.

TESTIMONIAL OF J. R. WILDE, M. R. I. A., F. R. C. S.

Surgeon to St. Mark's Hospital, Dublin.

I had the pleasure of being intimately acquainted with Dr. R. P. HOWARD during his residence in Dublin in 1848-9, and it affords me very great pleasure indeed to bear my testimony to his high professional acquirements, and his great zeal in the pursuit of medical knowledge.

I feel firmly convinced that Dr. HOWARD will, if opportunity is afforded him, advance Medical Science, and it shall always afford me great satisfaction to hear of his success.

J. R. WILDE, M. R. I. A., F. R. C. S.

Dublin, June 21, 1850.

TESTIMONIAL OF J. CHURCHILL, M. D., M. R. I. A.

I had the pleasure of Dr. HOWARD's acquaintance in the winter of 1848-9, during which time he attended various Hospitals in Dublin, and from the admirable opportunities he enjoyed of acquiring professional information, and the diligent use he made of them, I cannot doubt that he has acquired a great fund of the most valuable professional experience.

J. CHURCHILL, M. D., M. R. I. A.

137 Stephens Green, Dublin, June 3, 1850.

TESTIMONIAL OF SAMUEL GORDON, M. D.,

Physician to the Hospitals of the House of Industry, to the Government Lunatic Asylum, &c., &c.

DEAR SIR,

In reply to your note asking for my opinion of your qualifications as a Medical Practitioner, I have great pleasure in testifying to the zeal, diligence and attention with which you attended the practice of the Hospitals of the House of Industry, and I trust you may have, for the benefit of society, an opportunity of displaying the amount of practical knowledge which you there obtained.

I remain yours truly,

SAMUEL GORDON, M. D.

11 Hume Street, Dublin, June 20th, 1850.
